## J & S Landscaping Warranty

### Warranty for Plants, Shrubs and Trees Purchased and Installed By Us

J & S Landscaping takes great pride in the quality and selection of the greens that we install in our landscape designs. We guarantee to install live, healthy, disease free plants, shrubs and trees. Our nursery is visited by the DOA on a yearly basis to evaluate all plants. Our suppliers also provide us with certificates of health.

Maintenance of these plantings is very important. Proper watering and pruning is needed to establish good root development and promote healthier plant foliage and flowering (Watering instructions are available on our website or can be requested).

Plants purchased and installed by our company are under warranty for up to 60 days from the date of installation. If at any time the plant starts to decline, please notify as soon as possible so that we may rectify by either treating the plant or replacing it if it is under warranty. If the plant starts to decline after the warranty period, we will be more than happy to install a new plant at our wholesale cost plus labor. **This warranty does not cover plants that die due to lack of water, over watering, insect/animal damage, or acts of nature.**

Please note that grass seeding and sodding is a high maintenance investment. J&S Landscaping is not responsible for washouts, under-watering, or natural occurrences, i.e, hurricanes etc. Seeded lawns require additional re-seeding and would be an additional cost.

If you have any questions or concern, please don't hesitate to contact our office at the number listed above or via email at james@benjaminsgrove.com

Thank you for your business!
