J & S Landscaping Warranty

Warranty for Plants, Shrubs and Trees Purchased and Installed By Us

J & S Landscaping takes great pride in the quality and selection of the greens that we install in our landscape designs. We guarantee to install live, healthy, disease free plants, shrubs and trees.

Maintenance of these plantings is very important. Proper watering and pruning is needed to establish good root development and promote healthier plant foliage and flowering (please ask about watering instructions for your plants or check our website for instructions).

Plants purchased and installed by our company are under warranty for up to 60 days from the date of installation. If the plant starts to decline, we need to be notified as soon as possible so that we may rectify by either treating the plant or replacing it if it is under warranty. If the plant starts to decline after the warranty period, we will be more than happy to install a new plant at our wholesale cost plus labor. **This warranty does not cover plants that die due to lack of water, over watering, insect/animal damage, or acts of nature.**

Grass seeding and sodding is a high maintenance investment. J&S is not responsible for washouts, under-watering, or natural occurrences, i.e, hurricanes etc.

If you have any questions or concern, please don't hesitate to call our office at 570-889-5366.

Thank you for your business!
